Dear Mr. Newman:

Your name is such a familiar one in numismatic circles that some how I feel that I know you, although I have never met you personally or have had an occasion to correspond with you directly.

Recently, George Fuld wrote me with regard to tokens and he mentioned that if I had a token from Racine, Wisconsin of the Civil War variety, on the J.I. Case Co., that you were interested in it. I do have the two varieties that exist on this and the enclosed token is an extra one. Please accept it with my compliments.

Although our reference collections are not as great as those of George Fuld, we do have a fairly nice representation of Wisconsin Civil War tokens. We also have a few of the broken bank notes from that area. In the travels that I do in conjunction with the paper, I have met several individuals that are interested in this sort of thing. If at any time you feel that I may have information that is helpful to you, please free to contact me.

Perhaps I will have the pleasure of your personal acquaintance in the near future.

Sincerely,

Chester L. Krause

Dear Mr. Krause:

Your very friendly letter and kindness was most appreciated.

It was very nice for you to send me the Case token. I certainly would like to reciprocate. If you do not have the Van Cott token with the error in the spelling of Racine, I will, of course, send it to you, or if you would like a Civil War token from some other area I would feel much better about it.

If at any time you are in St. Louis I certainly would enjoy knowing you. Most of my spare time is devoted to numismatic research and writing and I realize that yours is devoted to developing interest in numismatics by your publication. It takes everyone working together to develop further this exciting field.

In the interest of having further correspondence with you, I am enclosing the envelope which was sent to the wrong state. It shows how marvelous our postal department is.

Sincerely yours,

ERIC P. NEWMAN

Gentlemen:

Please send me four copies of page 30

In the February NUMISMATIST I am disclosing the existence of a newly made dangerous Oak Tree Shilling forgery. If you would like a news story in connection with it I will be glad to send it to you.

Dear Eric:

Under separate cover I have sent a complete set of COINS Magazine up to date. They started in 1962 and you will note that there are only 11 copies for that first year, as we had a little mix-up between newsstand date and subscribers date. The set, however, is complete.

It was a pleasure seeing you in Cleveland and look forward to meeting you at another convention in the near future.

Sincerely,

Edward C. Rochette

Attention: Mr. Rochette

Gentlemen:

For my research library (and I am one who reads, as you may know), I wanted to get a complete file of your magazine "COINS". Your wife was nice enough to volunteer to do that for me but I wanted to be sure that in so doing you knew it would be most appreciated. I would then want to subscribe and continue receiving it. Can you help me in this regard?

Please assure your wife that the St. Louis necktie, which she wanted for her father, will be a pleasure to arrange for, as a small part of my appreciation, for the magazines.

On page 12 of your booklet, "COINS", there is a slight piece of humor. You have illustrated a modern forgery of a Pine Tree shilling rather than a genuine one. This forgery can be found in Mr. Noe's monograph on the subject. When you reprint the page I suggest you put in a different picture. If you want one I will, of course, be glad to furnish it.

It was a great convention and although it was probably work for you it was certainly a pleasure for me.

Cordially,

ERIC P. NEWMAN

Dear Ed:

Even though you were a St. Louisian who moved away, I wish you the best of success in your new editorship and know that your fine record made you deserving of the honor given you. I know that you and your wife will be a fine addition to Colorado Springs.

You are my new boss as editor and I want you to be lenient in reviewing whatever I send in.

Dear Cliff:

Enclosed is a copy of letter I received from Walter Breen. His series of Federal Paper Currency items which you publish is excellent.

He indicates you have his article on interest notes for publication. He wants illustrations for you to use. He says his descriptions are somewhat incomplete on the \$3 and \$50.

Do you want to revise his descriptions? Do you want to take the pictures of my pieces or should I have it done?

Let me know the timing so we can improve his article. He probably is not allowed to correct his manuscript under his arrangement with First Coin Investors.

Kindest regards,

Sincerely,

Walter's presentation commences with the 1815 series, so I would be interested in photos of your pieces from that issue. I do have, via Phil Lampkin, a photo of an unsigned note of the February 24, 1815, series \$5 note. I also have a signed \$10 note of the series via Chase Manhattan. I also have pictures prepared from the two flyleaves in the Knox book. Anything that that can fill in the gaps will be very much appreciated. On photos I am accustomed to paying going rates, so you can just arrange for the job. Would prefer 4x5.

Dear Cliff:

I feel that I should mention to you that in the pirated edition of World Coins (3rd edition) all references to China/Soviet Issues and to China/Peoples Republic have been deliberately omitted. Page 260 has been modified, Page 261 and 262 were omitted, and page 4 been partially blanked. There is a published advertisement on the modified page 260 which is mostly in Chinese and I don't know what it says.

This might make an interesting news article if you can have the Chinese translated. I'll send you photocopies if you do not have the Taiwan edition.

Sincerely,

Eric P. Newman
